

Create New Training Supervisor View V3.0

Note that create new training page is being implemented as a pop-up.

This is the first step of a three-step process. It shows a placeholder for an uploaded image and fields for 'Training Name' and 'Training Description'. A 'Next' button is visible at the bottom.

This is the second step, titled 'Assign Tasks'. It lists two tasks: 'Task 1' (Learn the essentials of fast food training through an interactive simulation) and 'Task 2' (Learn how to mitigate safety hazards in the workplace). Each task has an unchecked checkbox next to it. Buttons for 'Back', 'Skip', and 'Next' are at the bottom, along with a '3' indicating the step number.

This is the third step, titled 'Assign Employees'. It lists two employees: 'Name 1 id number' and 'Name 2 id number', each with an unchecked checkbox. Buttons for 'Back' and 'Save' are at the bottom, along with a '3' indicating the step number.

can only close if click close button

To make things more pleasing visually:
- Potentially using components of an actual burger diagram as opposed to images of actual ingredients, eg. not displaying a bowl of tomato sauce as part of a burger lol.

Users

Supervisor View V3.0

The screenshot shows a web-based application interface for managing users. On the left, a vertical sidebar lists navigation options: Supervisor, Insert XR System Logo Here, Hello YK!, Dashboard, Profile, Tasks, and Users. The 'Users' option is highlighted with a blue background. The main content area has a header 'website.com' and a title 'Users'. Below the title is a search bar with a magnifying glass icon. A table displays two user records:

	First name	Last Name	Staff ID	
	First Name 1	Last Name 1	ID 1	
	First Name 2	Last Name 2	ID 2	

A large blue callout box on the right side of the screen contains the text "edit can edit anything".

Recipes

Supervisor View V3.0

The wireframe shows a web browser window titled "website.com". The left sidebar contains links: "Supervisor" (with placeholder "Insert XR System Logo Here"), "Hello YK!", "Dashboard", "Profile", "Tasks", "Recipes" (which is highlighted), and "Log Out". The main content area is titled "Recipes". It displays two categories: "Category 1" and "Category 2". Each category has a large empty box for recipes and a green "Create New Recipe" button with a plus sign. Below each large box is a smaller box labeled "Name" with a "View Recipe" button.

Question:
1) what image should we use?

e.g. click create new recipe under category 1, the category will auto-filled with category 1 but editable, dropdown
